

EV CHARGING SPIRAL CABLE

Introduction

It is generally made of TPU cable. The power connection used to control the movement of mobile devices can rebound quickly in a short time. It is widely used in mobile devices such as automobiles, machines, instruments and so on. According to the direction, there are mainly left direction coil spring and right direction coil spring.

Feature

- Conform to the provisions and requirements of 62196-2 IEC 2010
- Flexibility and Elasticity
- Non-toxic and Environment-friendly polymer
- High strength, Wear resistance, Cold resistance, High temperature resistance
- Oil resistance, Water resistance, Aging resistance

Code	Outer Diameter	Spiral Diameter	Specification
